

Products for cosmetics & personal care

Extending the options for beauty

The elements of success

You need a partner who can see the big picture when it comes to your products, your processes and your customers. Our experience and expertise in the special niches of organic chemistry, process technology and application development are at your service, providing you with a complete chain of solutions to enhance quality and profitability at every step.

Our versatile intermediates, an essential element of your winning formula, are specifically designed to add value and enhance end-product performance. Your solution to meeting the increasing demands for safer, lighter, more durable and environmentally friendly end-user products, begins here.

Innovation in everything we do

Innovation distinguishes every aspect of our business process. Developing smarter and safer solutions creates real value in new chemical applications. Focused innovation instills leadership and purpose in our business activities, improves internal processes and increases application and product competitiveness.

Delivering our promises globally

Our global presence provides you with reliable solutions and processes, consistent high quality, security of production and supply and delivery with precision. This commitment also means rapid response when product or application support is required and the very best in technical support.

Putting the care into chemicals

We take our responsibilities to heart and are committed to attentive, sustainable business practices. We minimize risks for our customers, our employees and the environment by working proactively to ensure safe products and processes.

Extending the options for beauty

A palette of ingredients to create superior products

Where do you turn when you need to create that element of surprise, that competitive edge?

Our broad portfolio of intermediates and specialties for enhancing cosmetic and personal care applications supports all ingredient manufacturers and suppliers. This palette of high quality raw materials allows you to customize solutions to meet your needs across multiple segments of production, be it in the creation of fragrances, functional ingredients, active ingredients or specialties.

We have a global presence, so wherever your operation is located, we can supply you with the necessary raw materials.

Our products for cosmetics & personal care:

Intermediates for fragrances

Aldehydes and acids for synthetic fragrances

Intermediates for active ingredients

Aldehydes for vitamin production and polyalcohols for antioxidants

Intermediates for functional products

Acids, alcohols and polyalcohols for multifunctional emollients with superior substantivity and multifunctional products

Acids, alcohols and polyalcohols for developing UV absorbers with water resistant properties featuring excellent compatibility in UV lotions

Dihydroxy acids for polyurethane dispersions used as a durable and long lasting film former with a natural feel

Allyl ethers for thickeners and silicone esters

Specialties

Boltorn® dendritic polyester polyols

Alicyclic alcohols as building blocks and solvents

Solvents and coalescing agents
