

Emoltene™ 100

Your choice of plasticizer for legendary durability

Performance on your terms

However, you measure performance, you can trust Perstorp to meet your standards. We are small enough to care about your business needs but large enough to deliver on our promises. Our 100% performance commitment includes not just the outstanding Emoltene 100 C10 plasticizer, but a team of dedicated experts and support staff. You get optimized supply reliability, development support and a fast business response whenever and wherever you need it.

OUR PERFORMANCE PROMISE TO YOU

- Enduring – durability only a C10 plasticizer can guarantee
- Predictable – trouble-free lifetime and greater sustainability
- Precise – tailored product to meet your toughest PVC challenges
- Picture-perfect – keeping outdoor products looking good for longer
- Peak – optimized supply reliability and logistics to suit you
- Partner – lifetime global commitment & dedicated support

MAIN SUPPLY & LOGISTICS ADVANTAGES

- Fully integrated production platform to secure supply
- Global storage facilities for local support
- Tailored logistics and supply supported by technical sales team
- Cost efficient services – VMI, e-invoicing, consignment stock
- Dedicated global customer support and proactive logistics team

SUPPLY & LOGISTICS SUPPORT

- Technical sales
- Customer services
- Supply & logistics

PRODUCT

Simply the best plasticizer

Emoltene 100 is a C10 general-purpose plasticizer famed for its reliability and technical superiority. Its legendary life-long durability and low maintenance make it the perfect plasticizer for the toughest outdoor applications and environments.

SUPPLY

Peace of mind

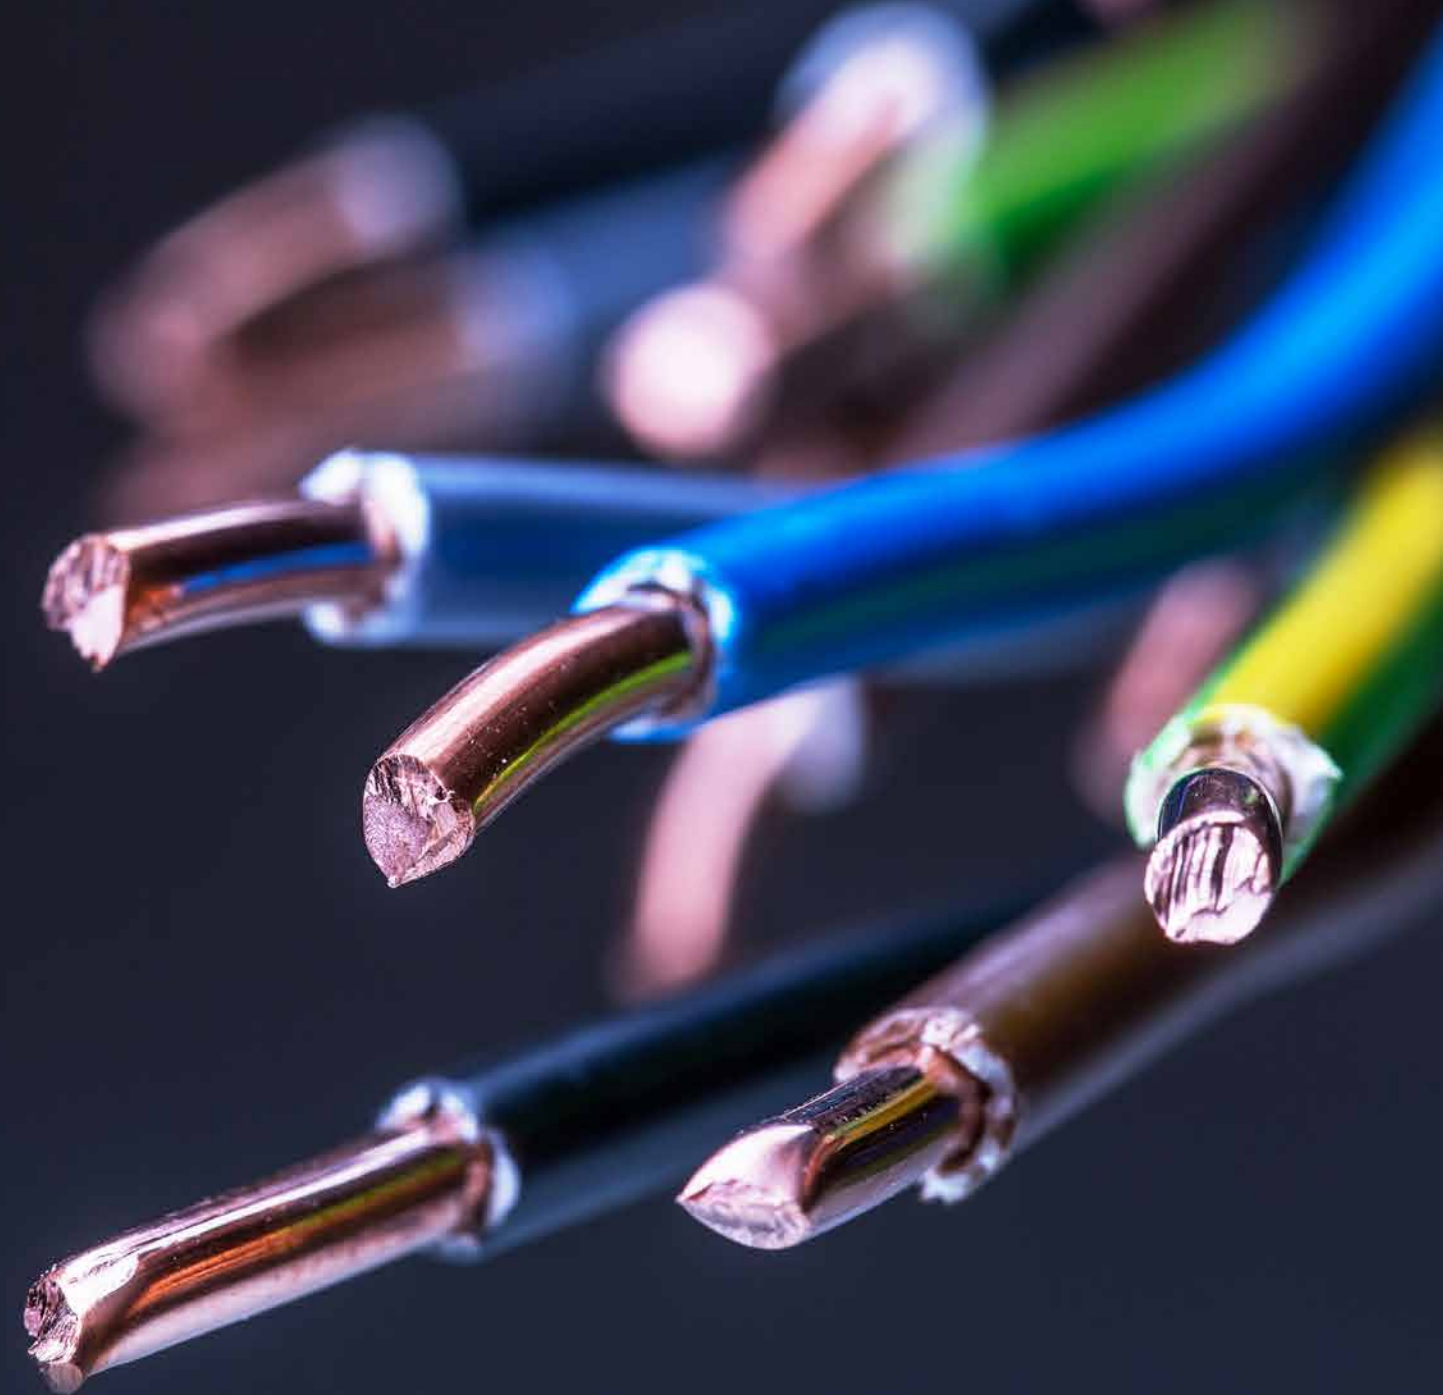

You can rest safe in the knowledge that we keep our supply promises. With Emoltene 100 we can guarantee you an OTIF (On Time In Full) service level close to 100%. Our production and storage infrastructure comfortably meets global demands and also allows us to respond rapidly to changes in local demand. We are “boringly” reliable, which is just how our customers like it.

DEDICATED SUPPORT

Judge us on our performance

Providing dedicated support, and access to our plasticizer technology is a key commitment. We proactively support you throughout your product development journey to fully maximize your value chain opportunities and minimize your total cost of ownership.

Good communication and understanding about our needs!”

Global refining, chemicals and plastics company

Emoltene 100 – Legendary durability

Main applications

CABLES & WIRES

ROOFING MEMBRANES

AUTOMOTIVE

Emoltene 100 is the plasticizer of choice for the harshest environments and the toughest tasks. Its legendary durability and weather resistance are perfect for high-performance outdoor applications (cables and roofing membranes) where low maintenance and a long, trouble-free life are critical considerations. This high-performance is further boosted by exceptional UV resistance to prevent early PVC degradation and aging, important in premium PVC solutions.

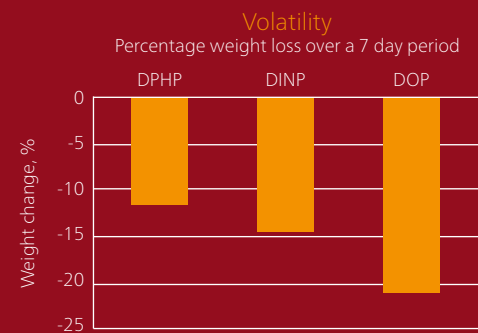

By substantially extending the life of PVC products, Emoltene 100 contributes to the lowest total cost of ownership and enhanced sustainability making this the best C10 plasticizer on the market today.

MAIN ADVANTAGES

- Longer-life, low maintenance & low PVC degradation
- Stable at higher operating temperatures
- Weather and environmental resistance
- Sustainable, safe and stable (low migration)
- UV and aging resistant
- Cost-efficient processing
- Low fogging
- Toxicologically approved

PRODUCT & DEVELOPMENT SUPPORT

- Technical sales
- Application specific
- New development
- Customer services
- Supply & logistics

Emoltene 100 offers our customers the opportunity to develop next-generation PVC products and, with our dedicated support, keep ahead of the competition”

Anders Magnusson
BU Market Development Manager, Perstorp

Dedicated commitment in action

Keeping you one step ahead of your competitors, we will help you and your customers to find the best solutions for your PVC formulations and applications. You have full access to our Emoltene 100 plasticizer technology and technical expertise. In practical terms, this means you benefit from shorter development times, and a greater certainty that your new or improved product achieves its market potential.

Day-to-day your dedicated Perstorp support team work to give you the personal service and business-wide expertise to help you succeed and lower your total cost of ownership. Our services include market development, R&D, processing, supply & logistics, which are available to directly support your needs whether they be for efficiency, cost- or market- effectiveness.

MAIN PARTNER ADVANTAGES

- Access to world-leading plasticizer technology
- Faster time to market
- Market development & value chain support
- Application know-how
- Cost-effective processing and higher extrusion and calendering rates
- Tailored logistics and supply (as needed)

PARTNER SUPPORT

- R&D development
- Technical & processing
- Market development & application focus
- Supply & logistics
- Customer services

We can provide customers with excellent development support from day one, helping them to fine-tune formulations and bring them to market in the most cost-effective way"

Anders Magnusson

BU Market Development Manager, Perstorp

One molecule can change everything

Perstorp believes in improving everyday life – making it safer, more convenient and more environmentally sound for billions of people all over the world. As a world leading specialty chemicals company, our innovations provide essential properties for products used every day and everywhere. You'll find us all the way from your car and mobile phone to towering wind turbines and the local dairy farm. Simply put, we work to make good products even better, with a clear sustainability agenda.

Perstorp's focused innovation builds on more than 135 years of experience, representing a complete chain of solutions in organic chemistry, process technology and application development. Manufacturing is based in Asia, Europe and North America, with sales and support in all major markets. The Perstorp Group is controlled by funds managed and advised by the European private equity company PAI partners.
