1. IDENTIFICATION

Product Name

2-Ethylhexanoic Acid

Chemical Name
2-Ethylhexanoic acid

CAS No
149-57-5

Other means of identification

Pure substance/mixture Substance

Recommended use of the chemical and restrictions on use

Application Chemical intermediate

Uses advised against Not identified.

Details of the supplier of the safety data sheet

Manufacturer Address
Perstorp Oxo AB
SE-444 84 Stenungsund
Sweden
Tel. +46 303 728600
Fax. +46 303 728607
www.perstorp.com

Supplier Address
Perstorp Polyols, Inc.
600 Matzinger Road
Toledo, Ohio 43612
Tel: 419-729-5448/ 800-537-0280
www.perstorp.com

E-mail address
productinfo@perstorp.com

Emergency telephone number
USA (+) 1 866 519 4752 (contract no: 334101)

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)
Reproductive toxicity - Category 2

Label elements
Symbols/Pictograms

Signal word
Warning

Hazard statements
Suspected of damaging fertility or the unborn child

Precautionary Statements
Obtain special instructions before use
2-Ethylhexanoic Acid

Do not handle until all safety precautions have been read and understood
Wear protective gloves/protective clothing/eye protection/face protection
IF exposed or concerned: Get medical advice/attention
Store locked up
Dispose of contents/ container to an approved waste disposal plant

Contains 2-Ethylhexanoic acid

Supplemental information
No information available

Hazards not otherwise classified (HNOC)
Other hazards
May be harmful if swallowed
Harmful to aquatic life

Unknown Acute Toxicity
Not applicable

4. FIRST AID MEASURES

Description of first aid measures

General advice
Emergency eyewash facilities must be located in the vicinity of where the product is handled.

Inhalation
Remove to fresh air. Rinse mouth with water. If irritation persists get medical advice/attention.

Skin contact
Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes.

Eye contact
Immediately flush eyes, also under eyelids, with water for at least 5-10 minutes. Use lukewarm water if possible. Get medical attention.

Ingestion
Rinse mouth then drink plenty of water. Seek immediate medical attention/advice.

Self-protection of the first aider
Avoid contact with skin, eyes or clothing.

Most important symptoms and effects, both acute and delayed
May cause harm to the unborn child.

Indication of any immediate medical attention and special treatment needed
Treat symptomatically

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media
Water, Foam, Carbon dioxide (CO2).

Unsuitable extinguishing media
High volume water jet.

Specific hazards arising from the chemical
Thermal decomposition can lead to release of irritating and toxic gases and vapors.
2-Ethylhexanoic Acid

Hazardous combustion products
Carbon monoxide (CO), Carbon dioxide (CO2)

Protective equipment and precautions for firefighters
Wear self-contained breathing apparatus and protective suit. Use personal protective equipment as required.

Additional information
Use water spray jet to protect personnel and to cool endangered containers. Prevent fire extinguishing water from contaminating surface water or the ground water system.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions
Keep people away from and upwind of spill/leak. Avoid contact with skin, eyes and inhalation of vapors. Use personal protection recommended in Section 8.

Environmental precautions
Do not allow into any sewer, on the ground or into any body of water. Local authorities should be advised if significant spillages cannot be contained. See Section 12 for additional ecological information.

Methods and material for containment and cleaning up

Methods for containment
Prevent further leakage or spillage if safe to do so
Small spill Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal
Large spill Pump up the product into a spare container suitably labelled.

Methods for cleaning up
Clean contaminated surface thoroughly. After cleaning, flush away traces with water.

Reference to other sections
See Section 7,8,13 for more information.

7. HANDLING AND STORAGE

Precautions for safe handling
Not to be used by pregnant workers and workers who have recently given birth or who are breastfeeding. Ensure good ventilation at the work station. Wear personal protective equipment according to section 8 if risk of exposure. Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity).

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities
Keep container tightly closed

8. EXPOSURE CONTROLS/PERSOANL PROTECTION

Control parameters
Exposure Guidelines
Users are advised to consider national Occupational Exposure Limits or other equivalent values, (if existing).

</table>

Appropriate engineering controls
Emergency shower and eye wash facilities must exist in the work place.
Ensure adequate ventilation

Individual protection measures, such as personal protective equipment
Eye/face protection
Tight sealing safety goggles.
2-Ethylhexanoic Acid

Hand Protection

Wear protective gloves. Ensure that the breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves.

10. STABILITY AND REACTIVITY

Reactivity
2-Ethylhexanoic acid is a carboxylic acid and will react with all bases, both organic and inorganic by the evolution of substantial amounts of heat. The substance can be oxidized by strong oxidizing agents and reduced by strong reducing agents. It may initiate polymerization reactions and may, like other acids, they catalyze chemical reactions.

Chemical stability
Stable under normal conditions.

**Possibility of Hazardous Reactions**
Reacts with cyanide salts to generate gaseous hydrogen cyanide. Flammable and/or toxic gases and heat are generated by the reaction with diazo compounds, dithiocarbamates, isocyanates, mercaptans, nitrates, and sulfides. Reaction with carbonates and bicarbonates generates carbon dioxide and heat.

**Conditions to avoid**
Keep away from ignition sources.

**Incompatible materials**
Strong oxidizing agents

**Hazardous decomposition products**
Thermal decomposition can lead to release of irritating and toxic gases and vapors: Carbon monoxide (CO), Carbon dioxide (CO2).

### 11. TOXICOLOGICAL INFORMATION

**Information on likely routes of exposure**
Dermal. Inhalation.

**Symptoms related to the physical, chemical and toxicological characteristics**
See Section 4 for more information.

**Numerical measures of toxicity**

**Acute toxicity**
Product does not present an acute toxicity hazard based on known or supplied information.

**13. DISPOSAL CONSIDERATIONS**

Disposal methods
2-Ethylhexanoic Acid

Revision Date 22-Sep-2020

Waste from residues/unused products
Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated packaging
Thoroughly emptied and clean packaging may be recycled. Contaminated packaging materials must be disposed of in the same manner as the product.

14. TRANSPORT INFORMATION

DOT Road transport Not regulated

RID Rail transport Not regulated

IMDG Sea transport
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Y, P,3,2G

IATA Air transport Not regulated

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

International Regulations
The Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

US Federal Regulations

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

CWA (Clean Water Act)
This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

CERCLA
This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

TSCA Inventory
Listed and active in the TSCA registry.

US State Regulations

California Proposition 65
This product does not contain any Proposition 65 chemicals

U.S. State Right-to-Know Regulations
Not applicable
