

ProPhorce™ AC 200

Product Description

ProPhorce™ AC 200 is a source of highly digestible calcium and exerts antimicrobial action both in the feed and in the digestive tract of the animal. A lowered pH-value in the feed supports the acidification of the stomach contents. This contributes to the animal's stable feed digestion while allowing important digestive enzymes to be activated faster, helping promote animal production and growth.

ProPhorce™ AC 200 is a white free flowing powder

Segment Applications

Feed acidifiers

Feed preservatives.

Delivery Forms

25 kg bags, 1050 kg/pallet.

Big Bags of 1000 kg

Bulk

ProPhorce™ AC 200

Sales Specification

Characteristics	Unit	Specification	Analytical Method ¹
Calcium Formate content	%	Min. 99.0	PO 124-4
Water content	%	Max. 0.2	PO 109-2

¹Analytical methods are available on request

Regulatory Information

FAMI QS:

This European Code of Practice for Animal Feed Additive and Premixture Operators ('Code') is in line with the Regulation of the European Parliament and the Council laying down requirements for feed hygiene, (183/2005/EC), good manufacturing practices, and the application of HACCP principles.

Registered according to the Regulation (EC) 183/2005 at the authority LANUV in Germany.

The product is adhering to all relevant EU legislation on unwanted substances in Animal Feed Additives.

Handling and Storage

Store in its original packaging at low temperature, preferably below 30 °C, to avoid cake formation. Stacking pallets during storage could increase the risk of caking. Shelf life: 36 months.

CAS No.: 544-17-2

HS No.: 2915 12
