

# Formalin LM 42

## Description

- Formalin LM 42 is an aqueous solution of formaldehyde.
- The product is clear and colourless and has a pungent, irritating odour.
- For additional information on formaldehyde follow the links [www.formacare.org](http://www.formacare.org) or [www.formaldehyde.org](http://www.formaldehyde.org)

## Applications

- Formaldehyde is a very reactive chemical and its main use is as a chemical intermediate and building block in the chemical industry.
- It is widely used in the production of UF, MF and phenolic resin production.
- Other major areas of use are in the production of BDO and MDI as well in the production of polyoxymethylene and polyalcohol's.

## Delivery forms

- Heated tank trucks

## Storage

- Use insulated storage tank with constant heating and agitation.
- The lowest recommended storage and transport temperature is 45°C.
- Do not store longer than one month.

## Sales specification

Formaldehyde content, % <sup>1</sup>	42±0.3
Methanol content, % <sup>2</sup>	Max. 1.0
Formic acid content, % <sup>3</sup>	Max. 0.03

Analytical Method

<sup>1</sup> 1068, <sup>2</sup> 1234, <sup>3</sup> 1230

Analytical methods are available on request

CAS no.: 50-00-0
