

Sodium Sulphate D

Description

- Sodium Sulphate D, Na_2SO_4
- Neutralised Sodium Sulphate to remove any free Formic Acid. Specifically suitable for dry blending and open handling in e.g. manufacture of powder laundry detergent.
- White powder

Applications

- Pulp industry
- Filler in detergents
- Glass manufacture
- Starch production

Delivery forms

- Big bag 1250 kg

Sales specification

Sodium sulphate, % ¹	Min. 99.0
Sodium formate, % ²	Max. 0.5
pH in 10 % solution ³	Min. 7.0
Water content, % ⁴	Max. 0.2

Typical properties

Particle size, % < 53 μm ⁵	5
< 150 μm ⁵	40
Bulk density, g/dm^3 ⁶	1450
Sodium carbonate, % ²	0.2

Analytical Method

¹ PO 314, ² PO 315, ³ PO 317, ⁴ PO 109-2, ⁵ PO 125-1, ⁶ PO125-7

Analytical methods are available on request
