## Product Description

Voxtar™ D100 is a Pro-Environment Polyol ready to be dropped into existing formulations. Based on mass balance concept, Voxtar™ D100 is a fully renewable Pentaerythritol (Penta) product designed to reduce the carbon footprint and supports sustainable sourcing of renewable raw material. Voxtar™ is third party certified according to the ISCC system which means we have both traceability back to the country of origin ensuring the biomass was sourced in a sustainable way as well as a certified mass balance and greenhouse gas (GHG) calculation.

Perstorp offers six grades of Voxtar™, M40, M100, D40, D100, E40 and E100, based on 40% and 100% renewable resources.
